

Maytag Home Solutions Build History

Maintained by Greg Sandell, "buildmaster"

Build numbers in red are ones that got promoted to the live Production site

Milestones shown in orange

Build Number	Date	Purpose	Comment
1	10/12/2000 (I think)		
2	10/13/2000 (I think)	Promote to test	
3	10/16/2000		
4	10/18/2000		
5	10/19/2000	Promote to test	
6	10/20/2000	Promote to test	This one had problem with cookies
7	10/23/2000		
8	10/24/2000		
9	10/25/2000	Promote to test, and first promotion to UUNet staging server	
10	10/26/2000	Promote to test only.	
11	10/27/2000	Promote to test only	
10 [sic]	10/27/2000	We took build 10 and promoted it to the UUNet staging server from test.	
12	10/30/2000	Promote to test, the promote to staging server. This was intended to be the first version of the site we let Maytag see on staging, but we had problems.	DB backup/restore suspected to be flawed.
13	10/30/2000	This was the first version of the site we let Maytag see on staging.	
14	11/1/2000	Promote to test only	
15	11/2/2000	Promote to test only.	
16	11/3/2000	Promote to test only.	
17	11/6/2000	Promote to test only. Caching was turned on by John Barnes	We discovered that caching messed up the site.
18	11/7/2000	Promote to test only. First time the code with the BV_UseBVCookie stuff got promoted.	This one had several delays before we were ready.
19	11/8/2000	Promotion to test, then staging, then production (non-live)	Problems. Aborted.
20	11/8/2000	Promotion to test, then staging, then production (non-live). First promotion of site to non-live production.	This one had problems too
21	11/9/2000	Promote to test, then staging, then live	

		production. First launch of site to live production	
22	11/15/2000		
23	11/17/2000	Promote to test, then staging, then live production	This is the one we did at 6am
24	11/29/2000	We put up the "new cookie code" (gives full membership functionality to users regardless of cookie state [enabled or disabled]).	
25	12/13/2000	One file change (/startup/mths.js) to fix the visitorsByQuery problem that was making page downloads take 13 seconds.	
26	12/14/2000	Content promotion and promotion of a handful of JSPs (but we promoted all JSPs and static htmls)	
27	1/9/2001	Changes to a bunch of pages for measurement group; corrected error on InfoNow page
