

getCookieState()

Called by processUserSession()

Guide to cs (cookieState) codes:

constHAS_COOKIES = 0;

Cookies have been determined to be enabled

constNO_COOKIES = 1;

Cookies have been determined to be disabled

Testing for cookies in process. (A cookie has been written, now we need to see if it can be retrieved)

constCOOKIES_READY_TEST = 3;

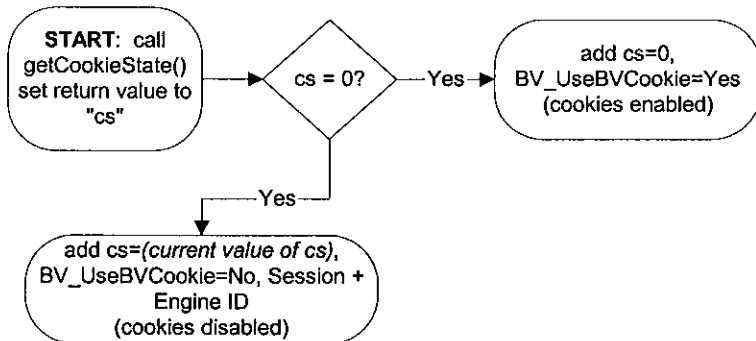

Cookie test hasn't started. We need to write a cookie to begin the test.

constQUERYSTRING_SESSION = 4

Cookies have been determined to be disabled, session is being maintained on the Querystring

makeDevURL()

(excerpt: determining the value of cookieState for the querystring)

addCookieStateToForm()
